

## **Geology Research Support Application**

**Amount requested \$**

**Project title**

### **Applicant information**

Name:

E-mail:

Advisor:

Degree objective:      M.S.      Ph.D.

When did you start graduate studies at UGA?

When did you last met with your entire advisory committee?

Have you submitted your thesis or dissertation proposal to your committee?      Yes      No

For Ph.D. students, have you passed your comprehensive exam? If so, when?

Expected graduation date:

### **Proposal should be considered by the following grants programs (check all that apply):**

Watts-Wheeler

Allard (field work is the primary research)

Berg (geophysics)

Levy (marine geology)

Thiele (clay mineralogy)

**What hypothesis or hypotheses will you test and what are your overall objectives?  
(1000 character limit)**

**How is this research scientifically significant? (1250 character limit)**

**How is this research societally significant? (1250 character limit)**

**What is your research plan? How you will you test your hypotheses? (1250 character limit)**

**Budget**

Description	Total budgeted	Amount requested
<b>Total</b>		

**Budget justification (1200 character limit)**

### Other research funding applications

Date (M/Y)	Grant agency	Amount requested	Amount granted, whether declined, or decision date	Amount remaining
------------	--------------	------------------	--	------------------

### List all previous Department of Geology research funding

Date (M/Y)	Amount awarded	List how the funds were spent
------------	----------------	-------------------------------

**References cited in proposal (2500 character limit)**

**Ask your advisor to submit separately a one-page support letter. Your advisor must have read this proposal and given you feedback on it.**
